Zuba Product Announcement 400-15-001

To: All Distributors

**From: Technical Service & Support**

Date: February 25, 2015
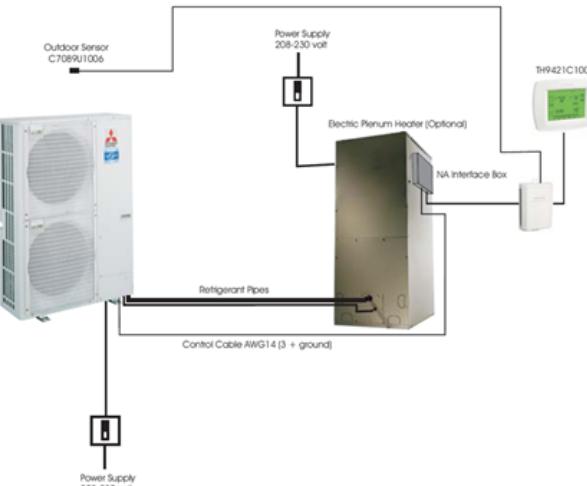

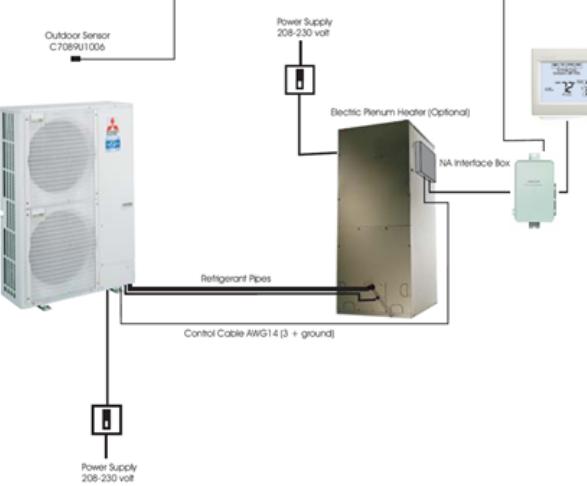

Subject: Changes to Zuba Central Package 3 model BVRMC1137S001-D4

Please be advised of the following information which outlines new model changes for Zuba central package 3. We will move from the current model BVRMC1137S001-D3 to BVRMC1137S001-**D4**. Both physical and operating specifications remain the same. The changes between the models include a new Honeywell thermostat with added features.

The tables below outline the changes between both models.   The new controller is backwards compatible and can be used with existing Zuba central package 3 and package 4 (the equipment interface must be changed on the existing Zuba central system)

Note:
The new thermostat is not pre-programed and requires program setup at the time of installation. Each Zuba central package 3 –BVRMC1137S001-D4 models will include a reference sheet for thermostat program setup.

BVRMC1137S001-D3 -Existing Zuba Package 3 System	**BVRMC1137S001-D4** –New Zuba Package 3 System
